NTSA vIITSEC VIRTUAL CAREER FAIR
WEDNESDAY, Dec. 2, 1:00-5:00 EST
Find your team and your opportunity to help drive innovation today for the battlefield of tomorrow!

Explore career opportunities in one of the world's fastest growing industries...simulation & training...at vIITSEC.

Simulation and training products are used in nearly every industry including military, industrial, healthcare and education. The simulation and training field encompasses a wide range of degrees including engineering, psychology, business, instructional design, game development, data analytics, artificial intelligence, cybersecurity, technical writing, medical and much more. Job opportunities just keep growing especially in the defense industry which has led the way in developing cutting edge solutions in simulation-based training.
